

SCREEN OPTIONS

Choose a screen to fit your lifestyle

function – durability – clarity – ventilation – defense against bugs

Aluminum Framed Fiberglass

- Most Popular
- Our Standard Screen
- Flexible material
- Will not unravel, dent, or crease
- UV rays cause it to fade over time
- Can be torn by sharp objects

Aluminum

- Stands up to UV rays
- High temperature resistant
- Corrosion resistant
- Stronger than fiberglass
- Dents easier
- Will oxidize in coastal areas

THE WORLD'S FIRST AND ONLY FLEXIBLE WINDOW SCREEN

The patented, simple, problem-solving design is turning heads in the industry, earning multiple awards, and selling millions.

- No color matching
- Nearly indestructible
- Full view
- No hardware
- Effortless installation and removal
