

300C Double Hung Series

High Performance, Low Maintenance
Cambridge Casing

BUILT NORTH IN THE EAST FOR THE NORTHEAST

*Backed by 4 generations of our family
serving you since 1946.*

ECOLGY

- Low Energy Consumption
- Smaller Carbon Footprint
- Durable, Sustainable Materials

ECONOMY

- Lower Energy Bills
- Low Ownership Cost
- Best-of-Class Warranty

COMFORT

- Low Air Infiltration
- High-Tech UV Protection
- Outstanding Sound Reduction

Energy Star

All Ecoshield Windows exceed all Energy Star standards for windows and sliding doors.

AAMA Durability

Frames and components are built to the stringent specifications of the American Architectural Manufacturers Association.

NFRC

America's leading window rating agency gives Ecoshield Windows their top rating for energy efficiency.

The Ecoshield Windows Story

Ka-Kel Windows are designed to live in harmony with your world. The high-efficiency design cuts energy costs dramatically. The low maintenance construction fits well with busy lifestyles. And with a best of class warranty, Kas-Kel Windows are guaranteed to work beautifully for years.

Ecology. Economy.

Kas-Kel Windows offer the best of both worlds, with a durable, high-performance design that meets or exceeds all Energy Star standards.

Ultra-High Performance

Our optional Energy Star U-4 and Energy Star III Glazing Packages meets or exceeds all current Energy Star standards. It can lower the average home energy bill by 30 to 40 percent and cut CO2 output by 1,600 pounds per year.*

Fabricated for today's generation.

Kas-Kel Windows offer a wide array of styles and casings to accommodate almost any design. Exceptional fit and finish, along with outstanding thermal performance have made them a popular choice among quality builders and homeowners, and they're backed by the best warranty in the industry.

Our Windows are made in the Northeast for the Northeast backed by 4 generations of our family – serving you since 1946.

GRILLS	WOCD sash limiters	✓
	5/8" Contoured Grill Between the Glass	✓
	3/4" Contoured SDL with spacer bar	✓

What's between the Glass Makes all the Difference

ECOSHIELD WINDOWS ARE BUILT WITH ADVANCED TECHNOLOGY DURALITE WARM-EDGE SPACERS

Windows built with Duralite technology reduce heat transfer and help stabilize the temperature of the inner windowpane, maintaining a comfortable inside environment, condensation-free glass, and saving you money on energy costs.

DURALITE® SPACER DESIGN

Duralite is a flexible, warm-edge spacer that lives between the inner and outer window panes. The Duralite technology features a unique no metal composite laminating system that provides superior durability and thermal performance for glass insulation in all weather.

An Ecoshield vinyl window with Duralite spacers contains an argon gas-filled polycarbonate shim with a virtually impermeable butyl sealant, a three-sided continuous moisture barrier, and a desiccated topcoat. This advanced design eliminates condensation and mold and allows natural light to filter in with UV blocking technology that protects interior finishes and decor.

SUPERIOR THERMAL PERFORMANCE

The thermal performance of a window plays a major role in household energy conservation. A high-performance window system will keep your energy costs low by reducing heat loss in the winter and heat gain in the summer. Duralite combined with Low-E glass and argon produces one of the highest performing, energy-efficient window systems, saving you money on your heating and cooling costs. Duralite is an ENERGY STAR® qualified product.

Not All Glass is Created Equal

Windows in the Northeast can take a beating - Get the Right Glass!!!

Cold and Mixed Climates Like the Northeast Demand Performance from their Windows!

Energy Star III

- Higher level of solar heat control for the Northern Region
- High visible light transmission of 68% for plenty of natural daylighting and visibility into interior spaces
- Lower level of indoor and exterior reflectance
- The Low-e coating on this surface keeps weather OUT of your home.
Frigid winter air and summer heat stay outside where they belong!

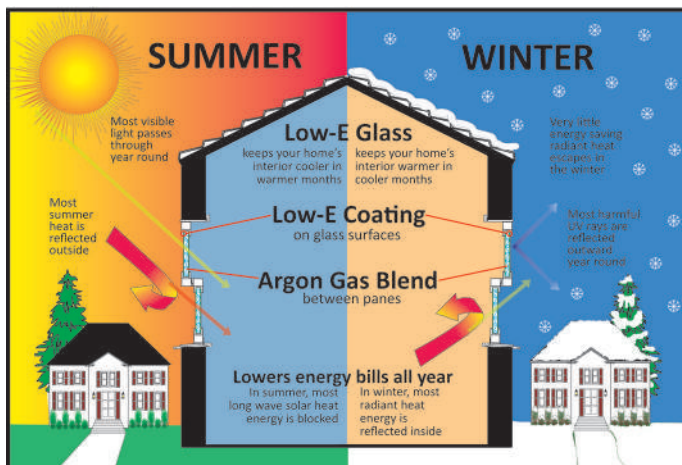

Energy Star U4

- Provides thermal insulation with passive solar gain resulting in year round cost savings
- High-level visible light transmission of 77% (VLT) for plenty of natural daylighting.
- Low-level indoor reflectivity
- Low – e coatings on both glass surfaced keeps weather outside and your controlled environment in!

DOE – R5

- REDUCE THE AVERAGE HEAT LOSS THROUGH WINDOWS BY AS MUCH AS 40 PERCENT!

**Based on exterior replacement utilizing 16 windows. Savings are average and may vary according to home type and location.*

CLEAR INSULATED GLASS

2 Pieces of insulated glass with air between them increases your energy efficiency from the standard One solid piece of glass.

Best for garages, sheds and other low cost applications

ECOSHIELD VINYL

SUPERIOR CONSTRUCTION MATERIALS

- Impact-resistant, scratch and dent-proof construction
- Resists pollution, acid rain, salt air, heat, humidity, temperature extremes, and weathering
- Lifetime guarantee and maintenance-free with easy cleaning functionality

SECURE FRAMEWORK

- Heavy-duty double-walled frames provide ultimate structural strength
- Interlocking sash rails prevent tampering
- Dual-arm operators and multi-point locking systems for added security

ENERGY SAVING DESIGN

- Patented DOE R5 glazing system provides superior insulation from weather and noise
- Unique multi-chamber construction eliminates the need for storm windows
- Meets Energy Star requirements, saving up to 40% in annual energy costs

TIMELESS DESIGN

- Clean architectural lines have a traditional window look
- Peel-free color integrated into vinyl construction
- Elevated curb appeal designed to last

OUR CUSTOM MANUFACTURING FORMULA COMBINES SUPERIOR PVC COMPOUNDS WITH INNOVATIVE ENERGY EFFICIENT TECHNOLOGIES TO PRODUCE A VINYL WINDOW THAT SURPASSES LEADING COMPETITORS IN QUALITY, COST-SAVINGS, AND VISUAL APPEAL.

Profile Options

Simulated Divided Light Grill

- **3/4" Contoured SDL with spacer bar**
- Our simulated divided light grill incorporates a space giving the look of true divided light

Grill Between the Glass

- **3/4" Contoured Grill Between the Glass**
- Our grill between the glass incorporates a deluxe shadow bar giving the look and feel of divided panes.
