MADE IN THE NORTHEAST

Kasson & Keller has been a family-owned and operated company serving the construction industry since 1946. We continually engineer high-efficiency, low-maintenance vinyl windows with innovative design features, adapting to the ever-changing demands of the new construction market. Our best-in-class transferable warranty, which includes glass breakage coverage, provides your customers with comprehensive protection and peace of mind.

Ecoshield by Kas-Kel Windows offer a wide array of styles and casings to accommodate almost any design. Exceptional fit and finish, along with outstanding thermal performance have made them a popular choice among quality builders and homeowners, and they're backed by the best warranty in the industry.

ECOLOGY.

Low Energy Consumption
Smaller Carbon Footprint
Durable, Sustainable Materials

ECONOMY.

Lower Energy Bills
Low Ownership Cost
Best-of-Class Warranty

COMFORT.

Low Air Infiltration
High-Tech UV Protection
Outstanding Sound Reduction

ULTRA-HIGH PERFORMANCE

Our standard E-III Glazing (Low E- Argon) exceeds standard energy efficiency in building codes while our ES4- Ver. 7 Double-strength glazing meets current Energy Star requirements. It can lower average home energy costs by 30 to 40 percent and cut CO2 output by 1600 pound per year.

2200 Series:

Narrow Profile for Maximum Daylight

The 2200 Replacement Window isn't just another standard double hung—it's the remodeler's edge, the dealer's go-to, and the contractor's time-saver. Designed with today's high-performance expectations in mind, it delivers:

- **ENERGY STAR®**-meeting/exceeding thermal performance—ideal for homeowners demanding comfort and efficiency year-round.
- Installer-first engineering with true sizing, tilt-in sashes, and an easy-clean design that speeds up jobsite timelines.
- Dual operating sash for maximum ventilation, flexible airflow and everyday usability.
- Peace-of-mind locking system that enhances security without added complexity.
- Crafted locally in the Northeast with durable materials that stand up to tough climates and even tougher client expectations.

From the showroom to the jobsite, the 2200 Series helps you deliver results that look good, perform great, and stand the test of time—backed by the support you deserve.

2200 Double Hung Windows

High Efficiency Windows

unique design allows for maximum viewing area and light

Our Standard Features Outperform Ordinary Replacement Windows.

Ecoshield by Kas-Kel double hung window allow users to control ventilation flow with vertically sliding sashes that open from both the top and bottom. Each double hung window is equipped with a design feature that holds the open sash or sashes in place at any position. Standard ventilation latches and tilt-in sashes make it ideal for both single and multi-unit applications.

- Both top and bottom tilt-in for easy clean feature making multi story windows hassle free to clean
- Choice of top and bottom sash ventilation
- Recessed locks & keepers for increased exterior aesthetics
- Premium sloped sill design eliminates exterior covered weep holes
- Composite meeting rails for increased strength without convection of cold
- Proprietary draft plug technology utilizing bulb seal technology
- Block & Tackle Balances
